2. The quantity of 32 each Key, Muzzle Brake is the guaranteed minimum quantity to be awarded under this solicitation and specifically represents the "minimum quantity", as defined by and referenced in FAR and DFARS clauses contained within this solicitation document either in full text or by reference. The minimum quantity will be obligated at time of award. All other estimated buy quantities are estimates only, and do not bind the Government in any way.
3. The minimum and maximum quantity ordering ranges, as shown on the Price Evaluation Spreadsheet at Attachment 002 are provided solely for the purpose of establishing reasonable ranges of quantities against which to provide prices, and to establish ordering limitations in the event that orders beyond the guaranteed minimum quantities are executed. Also see Clause IF6029, Order Limitations, FAR 52.216-19.
4. The stated minimum ordering range quantities, other than the stated guaranteed minimum quantity of 32 each Key, Muzzle Brake, are not guaranteed buy quantities. An award under this solicitation in no way obligates the Government to order the stated minimums or maximums beyond the guaranteed minimum quantity. Each order stands on its own insofar as it obligates the Government.
5. If additional orders are placed, the stated maximum ordering range quantities are established as specific limitations on the ordering authority of the Government. In no instance will the Government place orders in excess of the total maximum ordering range quantity stated for each ordering period. All orders will be issued unilaterally by the Government with firm delivery dates. Deliveries for all CLINs shall commence not later than 90 days after recedipt of order.
6. Prices will be proposed on an F.O.B. Destination basis for all CLINs. Shipping destinations are as follows:

7. Evaluation of offers shall be in accordance with the evaluation guidelines in Section M of this solicitation.
8. The proposed unit prices for all quantities, both the guaranteed minimum quantity and the indefinite quantities, shall be marked in the table in Attachment 002. Proposed unit prices are NOT to be marked in Section B. Proposals offering prices for less than all three ordering periods and all weighted quantity ranges will not be considered. Proposals offering prices for quantities other than those solicited will not be considered.
9. Following are the dates of the Ordering Periods (OP) covered by this solicitation:

Ordering Period (OP) 1: Award Date - 31 July 2001
 Ordering Period (OP) 2: 01 August 2001 - 31 July 2002
 Ordering Period (OP) 3: 01 August 2002 - 31 July 2003
10. The Government's projected buy quantities, by Ordering Period, as set forth in the table below, represent the best estimate of actual projected requirements, based on a combination of order history, actual orders on hand, and projected demand. These quantities may be impacted by many unforeseen factors including changing technologies and budgetary influences. Therefore, ordering ranges have been established as follows:

(d) To eliminate the competitive advantage an evaluation factor shall be added to each offer which is predicated on the use of the above detailed existing Government production and research property.

(e) For rent-free use of Government-owned production and research property, such use shall be evaluated by adding to the price of the item(s) at the rates set forth in FAR 52.245-9 for each month of the proposed production period. Where both rental use and rent-free use will occur during the same production period, the rent and the evaluation in lieu of rent-free use will be computed in accordance with the formula for proration set forth in the Use and Charges clause, FAR 52.245-9.

(f) The months that will be used for the purpose of the evaluation will be the period computed in months set forth by the offeror: _____ months (this period shall include the first, last, and all intervening months). The Contractor will be liable to pay rent for use of any Government-owned property which exceeds the time specified in this clause. pay a rental thereon for the entire leasehold/rental period irrespective of actual usage.

(i) If Government production and research property is being used on other work under one or more existing contracts for which use has been authorized, the evaluation factor shall be determined by prorating the rent between the proposed contract and such other work. The pro-rata share applicable to a proposed contract shall be determined by multiplying the full rental charge for use of Government production and research property for the period for which rent-free use is requested by a fraction, the numerator of which is the amount of use of such property requested by the contractor under this proposed contract and the denominator of which is the sum of the previous authorized use of the property by the contractor for the period and the use requested under the proposed contract. The Contractor must indicate in it’s bid offer if a pro-rata share is applicable for this procurement.

(j) Special considerations relating to use of Government-owned facilities and special tooling by subcontractors.

(1) Evaluation factors applied to prime contractor’s offers will be the same for both proposed prime contractor’s and subcontractor’s use of Government-owned property, including evaluation rates and production period.

(2) In the event that any prospective subcontractor desiring use of Government property pursuant to this provision refuses to quote a price to any prospective prime contractor or refuses to quote on an equal basis to all prospective prime contractors, the Government reserves the right to:

- (i) Refuse to authorize the subcontractors use of such property, or;
- (ii) Evaluate 100% of the acquisition cost (including cost of transportation, and installation, and enhancement paid by the Government) of such property against the offer of the prime contractor proposing to use such subcontractor.

PRICE - EVALUATION CRITERIA

- The Government will evaluate offers based on prices proposed for each CLIN for all pricing periods and any other price related factors required by the solicitation.
- The Government will multiply the Proposed Unit Price times its corresponding weight and add the resulting three products to get a Weighted Unit Price which is then multiplied times the Estimated Quantity. The totals by Part Number will be added down to get the Evaluated Production Price for each Pricing Period. The Evaluation Production Prices will be added across and added to the Price Related Evaluation Factors Required by the solicitation (if applicable) to arrive at the Total Evaluated Price.
- If an offeror fails to propose for all pricing periods, the Government may reject that offer as unacceptable.
